

- **Essential For Trouble-Free, Accurate and Uniform Application**

Compex is a compatibility agent for direct addition to liquid fertilizers. Compatibility of liquid fertilizer/pesticide mixtures is essential to insure trouble-free, accurate and uniform application.

- **Works Preventatively and Curatively To Improve Mixtures**

Compex can be added directly to liquid fertilizers to improve mixtures with various pesticides.

- **Completely Soluble**

Compex is completely soluble in liquid fertilizers such as 28-0-0, 10-34-0, 4-10-10, and 6-18-6.

- **Improves Compatibility and Stability of Most Mixtures**

Compex is effective in improving compatibility and stability of most liquid fertilizer/pesticide mixtures.
