

Hydro-Wet® TG

Hydro-Wet®

Granular Soil and Turf Wetting Agent

Principal Functioning Agents

Polyoxyethylene, polypropoxypropanol, glycol butyl ether.....	22.5%
Montmorillonite granules.....	77.5%
Total.....	100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

- May cause eye irritation.

Precautionary Statements

- Do not get into eyes.
- Avoid breathing vapors or mists.
- Avoid using product in a manner as to directly or through drift, expose workers or other persons.
- Applicators and other handlers must wear goggles or face shield and chemical resistant gloves while applying this product.

First Aid

Always call a poison control center or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Skin Contact: If on skin or clothing. Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes.

Eye Contact: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

General Information

Hydro-Wet TG, when used in a water management program, will distribute water more uniformly throughout the root zone; eliminate localized dry spot; enhance turf quality, and reduce watering frequency.

Use Hydro-Wet TG to improve water efficiency on golf course fairways, greens or tees, athletic fields, residential and commercial lawns or any plant media or soil mix.

The dry granular carrier for Hydro-Wet TG is Terra-Green®. This inert, porous mineral is incorporated with liquid Hydro-Wet.

Hydro-Wet TG won't float off target and readily disperses into thatch area for release into soil profile. Hydro-Wet TG is an affective soil conditioner.

Storage and Disposal

Storage: Do not contaminate water, food or feed by storage or disposal of this product. Keep product cool and dry in sealed original bags.

Disposal: Do not reuse empty bags. Dispose of bags in accordance with all applicable federal, state and local regulations. If spill occurs, do not attempt to clean up with water, as area will become slippery. Simply sweep and dispose of material.

Directions For Use

Golf Course Greens: For use as a season-long preventive treatment: Apply Hydro-Wet TG at a rate of 2.0 to 2.5 pounds per 1,000 sq. ft. in early season. To maintain initial early season treatment, apply Hydro-Wet TG at a rate of 1.25 pounds every 2 to 4 weeks as needed. Irrigate treated areas lightly following application to move Hydro-Wet TG from the granule carrier and into the root zone. Hydro-Wet TG should be applied to dry turf.

Golf Course Fairways and Athletic Fields: Apply Hydro-Wet TG in advance of high heat and stress conditions at a rate of 100 pounds to the acre. Reapply at least two separate applications of 50 pounds per acre at two to three week intervals. Your results may vary based on equipment, operating speed and weather or climate conditions. Irrigate treated areas for 10 to 15 minutes immediately following application. DO NOT APPLY HYDRO-WET TG TO WET TURF.

Lawn Care: Apply Hydro-Wet TG at a rate of 2.5 pounds per 1,000 sq. ft. Repeat monthly as conditions require.

Newly Planted Nursery Material and Soil Media: Thoroughly mix 2.5 pounds of Hydro-Wet TG per cubic yard or backfill.

Recommended Spreader Settings

Spreader Manufacturer	Type	Rate 2.5-lbs per 1,000 sq. ft.
Earthway	Rotary	19
Gandy	Drop	20
Lesco	Rotary	C
Scotts Pro Turf R8A	Rotary	H 1/2
Spyker	Rotary	3

Due to the wide variety of spreader equipment available, it is recommended that the operator calibrate the spreader to achieve the desired rate per 1,000 sq. ft.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
