

- **Enhances Soil Moisture Content For More Vigorous Plants**

KA-3036 alters the property of water to enhance the infiltration and soil moisture content of applied irrigation water used on agricultural crops.

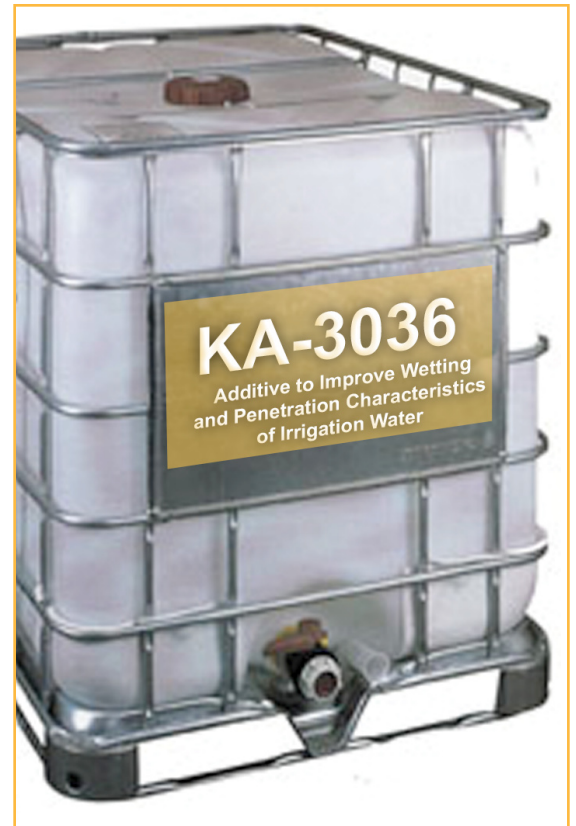

- **Improves Watering Efficiency By Reducing Run-Off and Evaporation**

KA-3036 can be used either preventatively or curatively to significantly improve watering efficiency.

- **Minimizes Soil Crusting For Assisting Emergence of Delicate Crops**

KA-3036™

Agricultural Soil Surfactant

Functioning Agents:

25% Proprietary Blend of Polyoxyethylene-Polyoxypropylene, Siloxane Surfactants

Tote and Pallet Sizes:

265 gallon tote
1 tote per pallet
