

Bio-Film Ultra™

Bio-Film Ultra™ Spreader-Sticker for Agricultural Sprays

Principal Functioning Agents

Polyoxyethylene sorbitan fatty acid ester, soybean oil ethoxylate, copolymer of alpha- and beta-pinene.....	100.0%
Total.....	100.0%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

Hazard Statements

- Causes serious eye irritation.
- Causes skin irritation.
- May cause respiratory irritation.

Precautionary Statements

- Wear protective gloves/clothing/eye/face protection.
- Wash thoroughly after handling.

First Aid

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or doctor/physician if you feel unwell.

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention.

If On Skin (or Hair): Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Wash contaminated clothing before reuse.

Environmental Hazards

Not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

General Information

Bio-Film Ultra is a water soluble spreader-sticker for providing improved distribution and retention of insecticide, acaricide and fungicide deposits on the plant foliage. It aids in forming a continuous insoluble non-drying elastic film on difficult-to-wet plant surfaces.

Bio-Film Ultra greatly reduces rainfall and sprinkler irrigation erosion of the spray residue.

Bio-Film Ultra is an extremely effective wetting and deposition agent.

Directions For Use

Bio-Film Export is effective in small quantities and need not be used at rates above the lowest amount necessary to provide adequate wetting and uniform deposit.

High Volume Sprayers: 1/4 pint/100 gallons (over 500 gal/acre)

Concentrate Sprayers: 1/4 to 1/2 pint/100 gallons (50 to 200 gal/acre)

Ground Sprayers: 1/2 pint/100 gallons (10 to 50 gal/acre)

Aircraft Sprayers: 1 pint/100 gallons (5 to 10 gal/acre)

Rates given above are recommended ranges for various types of application equipment. These rates may vary with water conditions, pesticide formulations, and equipment. It is suggested that the lowest recommended rate be tried first and then increased only if better depositing and distribution are obtained at a higher rate.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Do not allow product to freeze. Store in a closed container. Store in a well-ventilated space.

Disposal: Dispose of contents/container in accordance with local/national regulations.

FLAMMABLE LIQUID. N.O.S. (ISOPROPANOL. MORPHOLINE) 3. UN1993. PGIII.

For Export Purposes - Intended For Re-packaging

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
