

Granular Garden Soil Inoculant

Yield Booster For
Garden Peas, Sweet Peas, Beans and Lima Beans

**Contains a minimum of 100 million (1×10^8) viable cells per gram of
bradyrhizobium sp., rhizobium leguminosarum and R. phaseoli**

CAUTION: Although the contents of this bag are completely organic, avoid prolonged or repeated skin contact and inhalation. Wash hands with mild soap after use.

STORAGE: Store bag in a cool place. Keep closed until use. Protect inoculant bag and inoculated seed from sun, high temperatures and hot winds.

Registration Number: 980069A Fertilizer Act

Net Weight of Contents: 2.3 Ounces (65.1 Grams)

Yield Booster For Garden Peas, Sweet Peas, Beans and Lima Beans

Note: Use only on the specified legume seed.

Directions For Use

- Prepare the soil for planting. Make a furrow to the depth required for the seed. Cut off the corner of the bag. Sprinkle approximately 1 level teaspoonful (5 ml) of Nature's Aid Granular Garden Inoculant lightly in the furrow, in each 2 foot (0.6 meter) of row. Place the seed in the row and cover with fine soil. Treats up to 40 feet (12 meters) of row.

Nature's Aid is a trademark of KALO, Inc.

Limited Warranty

This product is warranted to produce satisfactory nodule formation and nitrogen fixation under favorable conditions of soil or climate when used before expiration date or purchased price will be refunded. Since many factors other than inoculation affect crop production, the manufacturer assumes no responsibility for loss or partial loss of crop from any cause whatsoever. This limited warranty is in lieu of other warranties, expressed or implied.
