

- **Ready-To-Apply Hydro-Wet Formula**

Hydro-Wet RTA is an economical, effective turf and soil wetting agent formulated to assist the management and conservation of water on highly maintained turf areas.

- **Lower Viscosity For Irrigation Injection In Cold Temperatures**

Reduced viscosity and an added surfactant ingredient allow **Hydro-Wet RTA** to be effective both as a tank mix application and for irrigation injection.

- **Advanced Surfactant Formula Allows Traditional Use Rates**

The special 5-gallon dense pack with spigot provides an easy-to-use method of hand watering while using the Pro-Ap® Liquid Siphoning Applicator.
