

Foam-Dye Red™

Red Liquid Colorant for Higher Visibility Foam

GENERAL INFORMATION

Foam-Dye Red is a highly concentrated and safe colorant, which when added to a foam solution tank, will produce a colored and highly visible foam dye.

Applicators of fertilizers and pesticides will discover the ease of application when guided by a trail of brilliantly colored foam marks.

Adverse field conditions such as sun-bleached stubble, heavy crop residue, snow, sand or alkaline areas will restrict the visibility of normal foam marks. However, by adding Foam-Dye Red to the foam solution tank, the user will eliminate this costly and frustrating situation.

An added benefit of coloring foam is if by chance the foam marks "drain" or dissipate prior to the return trip across the field, a trail of colored "spots" will remain on the field surface to easily guide the user.

Foam-Dye Red will not reduce the expansion capability of foam solution.

This product will not harm the soil or crop.

USE RATES

Add 1 fluid ounce of Foam-Dye Red for each 10 gallons of foam concentrate solution.

TECHNICAL INFORMATION

Flashpoint: >212°F

pH: 3.0

Solubility in Water at 20°C: Dispersible

Color & Appearance: Dark Red Liquid

Storage Temperature - Minimum: 40°F - DO NOT FREEZE!

Storage Temperature - Maximum: 120°F

DOT/IMDG Transportation: Not Regulated

Registered With CDPR: N/A

Registered With WSDA: N/A

PRINCIPAL FUNCTIONING AGENTS

Highly concentrated red dye...100%

PACKAGING

12 x 1 quart bottles
10 cases per pallet
Item#: FD01
