

- **Holds and Drains Moisture**

Exceed Peat Garden Combo is derived from organic matter which creates a loose structure that simultaneously holds moisture and drains well.

- **Aids In Growth and Production of Beans, Peas, and Peanuts**

Exceed Peat Garden Combo aids in growth and production of all varieties of garden beans, peas, and peanuts. This product will not aid in the production of soybeans.

- **Converts Atmospheric Nitrogen Into a Usable Form For The Plant**

Exceed Peat Garden Combo contains billions of live bacteria that are essential in the nitrogen fixating process of garden legume plants.

- **Leads To Greater Yields**

Exceed Peat Garden Combo enables the plant to produce its own organic source of nitrogen, leading to more lush vine growth and ultimately greater yields.

- **Legume Specific**

Exceed Peat Garden Combo is legume specific.
