First Aid

If Swallowed:
Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled:
Move person to fresh air and keep warm and at rest. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If in Eyes:
Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Call a poison center or doctor/physician if you feel unwell. If eye irritation persists, get medical advice/attention.

If on Skin:
Wash with disinfectant/non-abrasive soap and water/shower.

General Information
Foam-Dye Blue is a highly concentrated and safe colorant, which when added to a foam solution tank, will produce a colored and highly visible foam dye.
Applicators of fertilizers and pesticides will discover the ease of application when guided by a trail of brilliantly colored foam marks.
Adverse field conditions such as sun-bleached stubble, heavy crop residue, snow, sand or alkaline areas will restrict the visibility of normal foam marks. However, by adding Foam-Dye Blue to the foam solution tank, the user will eliminate this costly and frustrating situation.
An added benefit of coloring foam is if by chance the foam marks “drain” or dissipate prior to the return trip across the field, a trail of colored “spots” will remain on the field surface to easily guide the user.
Foam-Dye Blue will not reduce the expansion capability of foam solution.
This product will not harm the soil or crop.

Directions for Use
Add 1 fluid ounce of Foam-Dye Blue for each 10 gallons of foam concentrate solution.

Precautionary Statements
Avoid breathing dust, fume, gas, mist, vapours, spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product.
First Aid
If Swallowed: Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
