Foam Marking Agent

Principal Functioning Agents

Proprietary Blend of Active Foam Agents.....	100.0%
Total.....	100.0%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Precautionary Statement

May cause eye and skin irritation. Do not get in eyes or on skin. Harmful if swallowed.

Statement of Practical Treatment

If accidental contact with eyes, skin, or clothing occurs, immediately flush thoroughly with water for 15 minutes. If irritation persists, get medical attention.

Storage and Disposal

Store above 45° F

Storage: Do not contaminate water, food or feed by storage or disposal of this product.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

General Information

This agricultural foam concentrate is specially formulated to deliver long lasting foam in a range of weather and field conditions. This highly concentrated formula, when used as directed, will produce a thick, white, highly visible foam. This foam can be used with any foam marker equipment for fertilizer and pesticide applications, seed planting and general field cultivation. This product is formulated to handle extreme hard water and high temperature conditions.

Note: Foam will disappear faster when placed on dry soil under bright sunlight, high temperature and high wind conditions. The concentrate when used at proper consistency and foam volume, should be visible for up to 40% longer than traditional foaming agents. The use of colorant additives will reduce foam performance.

Directions For Use

Always thoroughly clean out the foam generator reservoir and lines when changing from one brand of foam marker to another. Use a high quality tank cleaner to remove residues and ensure optimum performance.

General Application Rate

This product is effective at a range of application rates. Use 1 gallon of concentrate to every 160 gallons of water or 1/2 pint (8 oz.) in every 10 gallons of water. If foam colorant additive is being used or adverse conditions exist (high temperature, hard water), use 2 ounces of concentrate for every 1 gallon of solution reservoir capacity.

The addition of water conditioners is generally not recommended. The product performs well in hard water up to 1500 ppm and mixes well in cold water. If foam solution is used in near freezing temperatures, add 2 to 3 ounces methanol per gallon of foam solution for immediate use.

Notice-Read Carefully

Limited Warranty and Conditions of Sale

In no event shall KALO, Inc., manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. KALO, Inc., manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by KALO, Inc., manufacturer or seller. Buyer or users exclusive remedy and KALO, Inc., manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by KALO, Inc., manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. KALO, Inc., the manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of KALO, Inc., manufacturer or seller. In no case shall KALO, Inc., manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and KALO, Inc., manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, KALO, Inc., manufacturer and seller, and no person or agent of KALO, Inc., manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
