

- **Humus Based**

**Exceed Peat Alfalfa/True Clover** is an economical, premixed, humus-based inoculant.

- **Converts Atmospheric Nitrogen Into a Usable Form For The Plant**

**Exceed Peat Alfalfa/True Clover** contains billions of live bacteria that are essential in the nitrogen fixing process of garden legume plants.

- **Leads To Greater Yields**

**Exceed Peat Alfalfa/True Clover** enables the plant to produce its own organic source of nitrogen, leading to more lush vine growth and ultimately greater yields.

- **Legume Specific**

**Exceed Peat Alfalfa/True Clover** treats all varieties of clover including arrowleaf clover, subterranean clover and rose clover. It does not treat subclovers.

## Exceed Peat Alfalfa/True Clover

Treats Alfalfa and Most Clovers  
(Except Subclovers)
