

Bio-Film® Ultra

Spreader-Sticker for Agricultural Sprays
For Export Purposes - Intended For Re-packaging

GENERAL INFORMATION

Bio-Film Ultra is a water soluble spreader-sticker for providing improved distribution and retention of insecticide, acaricide and fungicide deposits on the plant foliage. It aids in forming a continuous insoluble non-drying elastic film on difficult-to-wet plant surfaces.

Bio-Film Ultra greatly reduces rainfall and sprinkler irrigation erosion of the spray residue.

Bio-Film Ultra is an extremely effective wetting and deposition agent.

USE RATES

Bio-Film Ultra is effective in small quantities and need not be used at rates above the lowest amount necessary to provide adequate wetting and uniform deposit.

High Volume Sprayers:

1/4 pint per 100 gallons (over 500 gallons per acre)

Concentrate Sprayers:

1/4 to 1/2 pint per 100 gallons (50 to 200 gallons per acre)

Ground Sprayers:

1/2 pint per 100 gallons (10 to 50 gallons per acre)

Aircraft Sprayers:

1 pint per 100 gallons (5 to 10 gallons per acre)

TECHNICAL INFORMATION

Net Weight: 8.17 lbs/gal

Specific Gravity: 0.96-0.98

Flashpoint: >200°F SFCC

pH: 4.5-5.5

Solubility in Water at 20°C: Dispersible

Color & Appearance: Clear Pale Yellow Liquid

Storage Temperature - Minimum: 40°F

Storage Temperature - Maximum: 120°F

DOT/IMDG Transportation: Not Regulated

Marine Pollutant: No

Registered With CDPR: No

Registered With WSDA: No

PRINCIPAL FUNCTIONING AGENTS

Polyoxyethylene sorbitan fatty acid ester, soybean oil ethoxylate, copolymer of alpha- and beta-pinene...100.00%

PACKAGING

55 gallon drum
4 drums per pallet
Item#: BFULT55
