

Hydro-Wet® RTA

Hydro-Wet® RTA

Ready-To-Apply Soil and Turf Wetting Agent

Principal Functioning Agents

Polyoxyethylenepolypropoxypropanol, glycol butyl ether, polyether-polymethylsiloxane copolymer.....	44.8%
Inert ingredients.....	55.2%
Total.....	100.0%

KEEP OUT OF REACH OF CHILDREN WARNING

- Combustible liquid.
- Harmful if swallowed.
- Harmful in contact with skin.
- Harmful if inhaled.
- Causes skin irritation.
- Causes serious eye irritation.

Precautionary Statements

- Keep away from heat, sparks, open flames, hot surfaces.
- No smoking.
- Avoid breathing dust, fume, gas, mist, vapors, spray.
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Use only outdoors or in a well-ventilated area.
- Wear protective gloves and eye/face protection.
- IN CASE OF FIRE: Stop leak if safe to do so.

First Aid

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

IF SWALLOWED: Call a poison center or doctor/physician if you feel unwell. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

General Information

Hydro-Wet RTA is a high performance turf and soil wetting agent formulated to assist the management and conservation of water to ensure uniform movement, distribution and availability of water into the root zone.

Hydro-Wet RTA reduces watering requirements by minimizing water repellency in soils.

Hydro-Wet RTA can be safely applied as a preventative or curative treatment to improve irrigation efficiency and enhance turf quality by controlling localized dry spots in highly maintained turf areas.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a well-ventilated place. Store in original tightly closed container.

Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

Directions For Use

Golf Course Greens and Tees: As a preventative treatment, apply Hydro-Wet RTA at a rate of 8 fluid ounces diluted in 3 to 5 gallons of water per 1,000 square feet in advance of high heat stress. After 7 to 14 days following initial application, apply an additional application of 8 fluid ounces per 1,000 square feet diluted in the same manner.

A monthly maintenance treatment schedule can be substituted for the preventative treatment rate as follows: Using dilution rates as indicated above; apply an initial application of 8 fluid ounces per 1,000 square feet followed by monthly applications at a rate of 4 fluid ounces per 1,000 square feet.

Follow tank mix applications with a brief watering-in of treated turf areas to ensure that Hydro-Wet moves to the soil profile.

Golf Course Fairways, Athletic Fields and General Turf Areas: Apply Hydro-Wet RTA at a rate of 32 to 48 fluid ounces diluted in 40 to 50 gallons of water per acre. Reapply monthly throughout the season.

Irrigation Injection: Monthly Program: Inject 32 to 48 fluid ounces in 40 to 50 gallons of water per acre per month throughout the growing season.

Soil Mixes and Lawn Care: Apply 8 fluid ounces of Hydro-Wet RTA diluted in 5 gallons of water, then apply to 1 cubic yard of soil mixture or each 1,000 square feet of planting area.

Lawn Care: 4 to 8 fluid ounces diluted in 2 to 3 gallons of water applied per 1,000 square feet. Irrigate immediately following application.

Tank Mixing

Tank mix combinations containing Hydro-Wet RTA have not been tested under all growing conditions. Applicator should follow instructions of pesticide label to determine such use. Always exercise caution when using wetting agents with other commonly used turf chemicals and fertilizers. Test a limited turf area prior to large scale applications.

KALO's Pro-Ap® Liquid Siphoning Applicator

Calibrate by connecting Pro-Ap to the quick-coupler water source. Fill Pro-Ap bottle with water for testing purposes. Determine siphon rate under local pressure and flow rate conditions. Walk turf areas at a pace of 30 seconds per 1,000 square feet to confirm siphon rate.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
