

# Organosilicone MVO™

## Organosilicone MVO™ Modified Vegetable Oil and Surfactant Blend

### Principal Functioning Agents

Methylated vegetable oil, polyether modified polysiloxane, alkylphenol ethoxylate.....	100.0%
<b>Total.....</b>	<b>100.0%</b>

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

### KEEP OUT OF REACH OF CHILDREN WARNING

#### Hazard Statements

- Causes skin irritation.
- Causes serious eye irritation.
- Harmful if swallowed.

#### Precautionary Statements

- Wash thoroughly after handling.
- Wear protective gloves/eye/face protection.
- Avoid breathing fumes/mist/vapor/spray.
- Do not eat, drink, or smoke while using this product.
- IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing.
- If eye irritation persists, get medical advice/attention.
- IF ON SKIN: Wash with plenty of soap and water.
- Take off contaminated clothing and wash before reuse.

#### Environmental Hazards

Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

#### First Aid

**If in Eyes:** Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention. Call a poison control center or doctor for treatment advice.

**If on Skin or Clothing:** Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. Call a poison control center or doctor for treatment advice.

#### General Information

Organosilicone MVO is a unique blend of highly refined and modified spray oil and nonionic organosilicone surfactant.

Organosilicone MVO's unique chemistry allows for enhanced wetting and absorption of those pesticides or products with labels recommending the addition of a spray adjuvant to improve performance.

The addition of Organosilicone MVO to a spray tank solution will improve a spray application by physically modifying the wetting and spreading characteristics, the result being a more uniform spray deposit. Observe the initial application to insure thorough coverage without excessive runoff of the spray.

#### NOTE

The application rates on this label are based on pesticide labels which recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased for optimum results, follow pesticide labeling for proper recommendations. Before using Organosilicone MVO where a nonionic surfactant may not be recommended the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

California State Reg. No. 45989-50021-AA  
Washington State Reg. No. 45989-pending

### Directions For Use

Organosilicone MVO is intended for use with pesticides that are labeled for agricultural and non-agricultural uses. Not for aquatic use. The use of Organosilicone MVO can increase pesticidal activity where the following factors occur, but is not limited to: 1) Low humidity and high temperatures; 2) Low water volume rates of less than 15 gallons per acre; and 3) when target species are larger than the label recommendations at time of application.

#### APPLICATION RATES PER 100 GALLONS:

**Aerial:** 6 - 16 pints      **Ground:** 3 - 5 pints

### Mixing

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or Organosilicone MVO.

Add pesticides and/or fertilizers as directed by label or in the following sequence:

- 1) Micronutrients and fertilizers;
- 2) Dry flowables and dispersible granules;
- 3) Flowables;
- 4) Water soluble pesticides;
- 5) Emulsifiable concentrates.

Continue agitation and add Organosilicone MVO, when completed, reduce agitation and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank and allow to mix for 10 to 15 minutes prior to application.

NOTE: For optimum results, spray mixes containing Organosilicone MVO should be applied within 36 hours.

### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Do not store near heat or open flame. Store in original closed container. Store above 32° F. Store at ambient temperature.

**Pesticide/Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

### Organosilicone MVO IS NOT FOR AQUATIC USE

#### CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
