CONDITIONS OF SALE AND LIMITED WARRANTY

Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Manufacturer warrants that this material is reasonably fit for use as specified on this label. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.

GENERAL INFORMATION:

PIZAZZ is a powdered seed treatment designed to be applied after application of liquid seed treatment products for the purpose of improving seed flow and appearance. PIZAZZ may be applied with dry application devices designed for talc, graphite, dry inoculant, or other powdered products used for seed or grain.

DIRECTIONS FOR USE

Dispense PIZAZZ to flowing streams of seed in a manner that allows the treatment to be distributed and coated onto the individual seed surfaces. Suggested application points include at the finished slurry treatment transition, conveyor transitions, or any other seed flow points where seed will be tumbled and rolled prior to deposit into the final seed storage container.

General use rates for small round smooth seed such as soybean is 0.60 to 0.80 oz per 100 lbs of seed while larger irregular shaped seed may require rates up to 1 oz or more per 100 lbs of seed. The final rate selected should be based upon preference for seed appearance and finished seed flow characteristics.

PRECAUTIONARY STATEMENTS

PERSONAL PROTECTION EQUIPMENT (PPE): Wear protective gloves, protective clothing, eye protection and face protection. In case of inadequate ventilation wear respiratory protection.

FIRST AID MEASURES: In general, this product does not have any acute hazard characteristics. Treat exposures symptomatically as needed. **If on Skin:** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. **If in Eyes:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. **If Inhaled:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. **If Ingested:** Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

STORAGE & DISPOSAL: Store in original container protected from direct sunlight in a dry, cool and well-ventilated area. Keep container tightly closed and sealed until ready for use. Disposal of this product and used packaging in compliance with local waste management regulations.
