

- **Contains Beneficial Rhizobia**

Exceed Peat Crownvetch

contains beneficial rhizobia that is specific to the crownvetch plant.

- **Plants Produce Their Own Nitrogen Fertilizer**

When **Exceed Peat Crownvetch** is mixed with crownvetch seed, the rhizobium allows the plants to produce their own nitrogen fertilizer, thus saving on fertilizer costs.

- **Converts Atmospheric Nitrogen Into a Usable Form For The Plant**

Exceed Peat Crownvetch contains billions of live bacteria that are essential in the nitrogen fixating process of garden legume plants.

- **Leads To Greater Yields**

Exceed Peat Crownvetch enables the plant to produce its own organic source of nitrogen, leading to more lush vine growth and ultimately greater yields.

- **Legume Specific**

Exceed Peat Crownvetch

is legume specific. It treats all varieties of crownvetch and sainfoin.

Exceed Peat Crownvetch

Treats All Varieties of Crownvetch

Minimum Guarantee of Stated Culture:

Contains a Minimum of 200 Million (2×10^8) Viable Cells of Rhizobium Coronilla

Case and Package Sizes:

CV15 (Poly Bags)

1.5 ounces per bag

80 bags per carton

3 cartons per case
