

Pixy

PIXY

Powdered Seed Shine & Flow Aid

Principal Functioning Agents

Proprietary coated silicate mineral base.....100.0%

*All ingredients are exempt from tolerance requirements under 40 CFR 180.**This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200)*KEEP OUT OF REACH OF CHILDREN
CAUTION

Hazard Statements

- May cause irritation of the eyes.
- May cause irritation of the nose, throat and lungs.

Precautionary Statements

- Wear protective gloves/clothing and eye/face protection.
- In case of inadequate ventilation, wear respiratory protection.

First Aid

In general, this product does not have any acute hazard characteristics. Treat exposures symptomatically as needed.

If In Eyes: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses if present. Get medical attention if irritation occurs.

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

If Ingested: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

If On Skin Or Clothing: Flush contaminated skin with plenty of soap and water. Remove contaminated shoes and clothing and wash before reuse. Get medical attention if symptoms occur.

Storage and Disposal

Storage: Store in original container protected from direct sunlight in a dry, cool and well-ventilated area. Keep container tightly closed and sealed until ready for use.

Disposal: Dispose container/contents in accordance with local/national regulations.

General Information

Pixy is a powdered seed treatment designed to be applied after application of liquid seed treatment products for the purpose of improving seed flow and appearance.

Pixy may be applied with dry application devices designed for talc, graphite, dry inoculant or other powdered products used for seed or grain.

The Pixy Applicator is designed to be used with Pixy powdered seed shine and flow aid. The Pixy Applicator is mounted onto the rear of the treater with application tube positioned within the polishing drum to deliver treatment onto the tumbling seed.

Directions For Use

Dispense Pixy to flowing streams of seed in a manner that allows the treatment to be distributed and coated onto the individual seed surfaces. Suggested application points include at the finished slurry treatment transition, conveyor transitions or any other seed flow points where seed will be tumbled and rolled prior to deposit into the final seed storage container.

Small round smooth seeds (such as soybeans): 0.20 to 0.50 fluid ounces per 100 pounds of seed.

Large irregular shaped seeds: Large irregular shaped seeds may require rates up to 1 ounce or more per 100 pounds of seed.

NOTE: The final Pixy rate selected should be based upon preference for seed appearance and finished seed flow characteristics.

Pixy is Manufactured for KALO, Inc.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
