

Hydro-Wet® Injectable

Hydro-Wet® Injectable

Nonionic Surfactant • Irrigation Injectable Formulation

CONTAINS BENEFICIAL SUBSTANCE

Poloxyalkylene glycol.....14.0%

KEEP OUT OF REACH OF CHILDREN WARNING

Hazard Statements

- May be harmful in contact with skin.
- Causes mild skin irritation.

Precautionary Statements

- Wash thoroughly after handling.
- Wear protective gloves/eye/face protection.
- IF ON SKIN: Call a poison center or doctor/physician if you feel unwell.
- If skin irritation occurs, get medical advice/attention.

First Aid

Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. If skin irritation occurs, get medical advice/attention. Call a poison center or doctor/physician if you feel unwell.

Environmental Hazards

Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

General Information

Hydro-Wet Injectable improves the infiltration and penetration of applied irrigation water onto highly maintained turf areas.

Hydro-Wet Injectable can be used on all types of irrigation injection systems.

Hydro-Wet Injectable is formulated to treat soil repellency and enhance soil moisture content.

Hydro-Wet Injectable can also be applied using conventional ground spray equipment.

Directions For Use—For General Turf Use

Injection Application: Inject Hydro-Wet Injectable at a rate of 12 to 24 fluid ounces per acre monthly, or as needed throughout the growing season.

For More Difficult Areas: Hydro-Wet Injectable may be injected up to 48 fluid ounces per acre.

Conventional Sprayers: Apply 3/4 to 1 fluid ounces, diluted in 1 gallon of water spray, per 1,000 square feet of turf area. Apply monthly throughout the growing season.

Spray Applications

Add 12 to 24 fluid ounces of Hydro-Wet Injectable per 100 gallons.

Hydro-Wet Injectable should be compatible with most tank mix companion products. Read and follow the label instructions of the accompanying products to ensure that Hydro-Wet Injectable is appropriate for such use. If no recommendations are available for such use, conduct a jar test with all ingredients to confirm compatibility and spray apply mixture to small treatment area to confirm plant safety prior to large scale applications.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a well-ventilated place. Keep cool. Store above 32° F. Store away from heat or open flame and oxidizing materials. Keep container tightly closed. Store in original container only.

Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.agrecycling.org. Dispose of contents/container in accordance with local/national regulations.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
