

Tournament-Ready®

Tournament-Ready®

Soil Surfactant

CONTAINS BENEFICIAL SUBSTANCE

Alkylpolyglycoside and siloxane solution.....62.0%

Polyalkoxyate blend.....98.0%

KEEP OUT OF REACH OF CHILDREN WARNING

Hazard Statements

- Causes serious eye irritation.
- Causes mild skin irritation.

Precautionary Statements

- Wash thoroughly after handling.
- Wear protective gloves and eye/face protection.
- IF IN EYES: Rinse continuously with water for several minutes.
- Remove contact lenses if present and easy to do. Continue rinsing.
- If eye irritation persists, get medical advice/attention.
- IF ON SKIN: Wash with plenty of soap and water.
- If skin irritation occurs, get medical advice/attention.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

General Information

Tournament-Ready contains a blend of natural renewable-resource surfactant components combined with traditional surface-active agents that deliver long lasting residual performance. This unique class of surfactant blend works to prevent and control localized dry spots.

Tournament-Ready is the only surfactant that combines ingredients known to deliver long-lasting residual performance with natural, environmentally balanced components.

Research has proven that organic coatings surrounding sandy particles inhibit the infiltration of soil moisture. In high heat stress periods, delicate turfgrass can sustain injury or total loss due to lack of available moisture. Tournament-Ready won't harm beneficial soil microbes and has been developed with respect for the environment and worker safety.

Tournament-Ready works wherever localized dry spot occurs: golf greens and tees, fairways, athletic fields, and residential or commercial lawns.

Tournament-Ready reduces the surface and adhesive tensions of water.

Tournament-Ready assists water's infiltration and drainage of compacted or hydrophobic soils. It assists in the wetting of heavy thatch and when used regularly, will eliminate localized dry spots.

Directions For Use

Golf Course Greens and Tees: As a preventative treatment, apply at a rate of 8 fl. oz. diluted in 1 to 3 gallons of water per 1,000 sq. ft. in advance of high heat stress. After 7 to 14 days following initial application, apply an additional application of 8 fl. oz. per 1,000 sq. ft. diluted in the same manner.

A monthly maintenance treatment schedule can be substituted for the preventative treatment rate as follows: Using dilution rates as indicated above; apply an initial application of 8 fl. oz. per 1,000 sq. ft. followed by monthly applications at a rate of 4 fl. oz. per 1,000 sq. ft. Follow tank mix applications with a brief watering-in of treated turf areas to ensure that Tournament-Ready moves to the soil profile.

Golf Course Fairways, Athletic Fields and General Turf Areas: Apply at a rate of 16 to 24 fl. oz. diluted in 40 to 50 gallons of water per acre. Reapply monthly throughout the season.

Irrigation Injection: Monthly Program: Inject 16 to 24 fl. oz. in 40 to 50 gallons of water per acre per month throughout the growing season.

Soil Mixes and Lawn Care: Apply 4 fl. oz. diluted in 5 gallons of water, then apply to 1 cubic yard of soil mixture or each 1,000 sq. ft. of planting area.

Lawn Care: 2 to 4 fl. oz. diluted in 2 to 3 gallons of water applied per 1,000 sq. ft. Irrigate immediately following application.

Tank Mixing

Tank mix combinations containing Tournament-Ready have not been tested under all growing conditions. Applicator should follow instructions of pesticide label to determine such use. Always exercise caution when using wetting agents with other commonly used turf chemicals and fertilizers. Test a limited turf area prior to large scale applications.

Storage, Disposal & Spill

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Store in a well-ventilated place. Keep cool. Store in a tightly closed container. Store in original container only.

Disposal: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.agrecycling.org. Dispose of contents/container in accordance with local/national regulations.

Spill: In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.

NOT A PLANT FOOD PRODUCT

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
