### University Reports Confirm Tournament-Ready's Effectiveness

The following charts are excerpts from the:

**Evaluation of KALO Surfactants on Water Repellent Bermudagrass Putting Greens** 

As Reported by the University of Florida WFREC-JAY Research Facility 2007.

	Water Droplet Test-After 14 Days (Absorption in Seconds)			
	0.5 cm	1.5 cm	2.5 cm	4.5 cm
Untreated	381 seconds	198 seconds	194 seconds	106 seconds
<b>Revolution</b> <sup>®</sup>	54 seconds	33 seconds	30 seconds	29 seconds
Tournament-Ready <sup>®</sup>	61 seconds	42 seconds	42 seconds	46 seconds

	Volumetric Water Content			
	Day 1	Day 29	Day 61	Day 89
Untreated	12.6	10.3	10.8	12.1
<b>Revolution</b> °	12.3	15.2	13.1	16
Tournament-Ready*	13.4	16	14.7	19.4

	Turf Density Ratings			
	Day 17	Day 22	Day 37	Day 89
Untreated	6.2	6.2	6.4	6.6
<b>Revolution</b> <sup>®</sup>	7.0	7.2	7.0	7.0
Tournament-Ready*	6.8	7.2	6.6	7.0

	Turf Color Ratings			
	Day 17	Day 22	Day 37	Day 80
Untreated	6.2	5.6	5.8	6.4
<b>Revolution</b> <sup>®</sup>	7.0	7.4	7.0	7.0
Tournament-Ready <sup>®</sup>	7.0	7.2	7.2	7.0

	Turf Quality Ratings			
	Day 17	Day 22	Day 29	Day 96
Untreated	5.6	5.4	6.0	7.0
Revolution <sup>®</sup>	7.0	7.0	7.4	7.4
Tournament-Ready <sup>®</sup>	7.0	7.2	7.2	7.8

**Medalist**<sup>®</sup>

Available in

2 x 2.5 gallon case and 30 gallon drum.

### H2O Maximizer®

Available in 2 x 2.5 gallon case and 30 gallon drum.

# Tournament-Ready<sup>®</sup> Available in

5 gallon dense-pak with spigot, 30 gallon drum and 24 x 6 oz. pellets.

®Tournament-Ready, H2O Maximizer and Medalist are registered trademarks of KALO, Inc. Overland Park, KS 66213

\*Revolution is a registered trademark of Aquatrols Corporation of America, Inc.

#### **Tournament-Ready**<sup>®</sup> remains the gold standard for dependable results in any situation.

Unique blend of natural renewable resource surfactant components combined with a special class of surfaceactive ingredients for long lasting performance.

Quick relief into the sub-surface soil profile to manage soil repellency.

Can be used as both a preventative and curative treatment to eliminate localized dry spot in golf greens and other highly maintained turf.

University reports confirm comparable results to leading competitors at up to 35% less cost. (Univ. of FL 2007)

Available in 5 gallon dense-pak with spigot, 30 gallon drum and  $24 \times 6$  oz. pellets.

# H2O Maximizer® symbolizes the very best in water management for turf.

Spray or inject through irrigation systems.

The innovative blend of surfactants enhances water infiltration for more uniform soil moisture.

Unique polymer resin actively binds to soil particles to increase the water-holding capacity of the soil.

Proven in university tests to increase plant available water by at least 25%. (Miss. State Univ. 2011)

A great value for superintendents looking to make the most of every drop.

Available in 2 x 2.5 gallon case and 30 gallon drum.

# Medalist® offers affordable water management benefits by combating water repellency in soils.

Helps distribute water more uniformly through the root zone, thereby eliminating localized dry spot, enhancing turf quality and reducing watering frequency.

Can be used with irrigation injection systems, allowing turf management professionals to improve water use efficiency everywhere they irrigate.

Derived from renewable resources to provide safe, effective treatment of highly maintained turf.

Priced to fit even the tightest turf maintenance budgets.

Available in 2 x 2.5 gallon case and 30 gallon drum.
