

# Tournament-Ready® Plus Pellets With Actosol®

## Surfactant with Humic Acid and Micronutrient

**Directions for Hose-End Applicator:** Using available commercial in-line hose applicators, remove the plastic lid, insert the **Tournament-Ready Plus Pellets with Actosol** and the plastic jar into the reservoir of the hose-end applicator with the opening of the jar containing the pellet facing toward the flow of water. Secure the reservoir to the applicator and begin application. Inserting the jar with the pellet facing away from the water flow will slow the rate of erosion of the pellet thereby reducing the amount of wetting agent dispersed over time. This is an acceptable option for minimizing wetting agent use.

**Use Rates For Golf Course Greens, Tees and Other Highly Maintained Turf Areas:** Place one pellet into an applicator. Apply 2 to 4 minutes per 1,000 sq. feet of turfgrass. Treat weekly or as needed. Reapply **Tournament-Ready Plus Pellets with Actosol** as preventative treatment or follow-up maintenance in conjunction with regular turf management programs.

### First Aid

**If in Eyes:** Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

**If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

**If Inhaled:** Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

**If on Skin or Clothing:** Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

### NONPLANT FOOD INGREDIENT

30.0% Alkylpolyglycoside  
1.0% Siloxane  
19.0% Poloxalene  
2.0% Humic acid from Leonardite  
48.0% Inert binders  
**Guaranteed Analysis**  
Iron (Fe)..... 0.5%

## KEEP OUT OF REACH OF CHILDREN WARNING

### Hazard Statements

Causes eye irritation. Causes skin irritation.

### Precautionary Statements

Wear protective gloves and eye/face protection. Wash thoroughly after handling.

### General Information

**Tournament-Ready Plus Pellets with Actosol** contain a blend of soil surfactants combined with a water-soluble humic acid. These components assist with reducing localized dry spot by providing uniform soil moisture content plus improving stress tolerance, water retention, and stimulation of root mass and plant growth. **Tournament-Ready** soil surfactant and **Actosol** humic acid work in tandem to improve moisture holding and cationic exchange capacity of soils. The humic acid ingredient covers certain naturally available soil minerals into plant-available form. **Tournament-Ready Plus Pellets with Actosol** can assist to establish new plantings or maintain existing areas resulting in improved soil moisture and soil mineral balance.
