

## Bio-Film Extra™

### Spreader-Sticker Adjuvant

#### GENERAL INFORMATION

Bio-Film Extra is a self-emulsifiable, nonionic spreader sticker adjuvant intended for use with most plant protection products in which the label permits the use of a spreader sticker.

Bio-Film Extra is compatible in spray solutions with most commercial plant protection products and foliar feed micronutrients.

A thin coating of Bio-Film Extra spreader sticker forms an elastic film and bonds the accompanying tank mix product to the plant foliage. This enhances the efficiency of the spray application and minimizes loss through rainfall or irrigation run-off.

#### USE RATES

Always read and follow label instructions of accompanying pesticide product.

##### Ground Application per 100 Gallons of Spray Mix:

Fungicides, Acaricides, Insecticides.....4 to 16 fluid ounces

##### Air Application per Acre:

Depending on usage and spray equipment...4 to 16 fluid ounces

#### TECHNICAL INFORMATION

**Net Weight:** 8.34 lbs/gal

**Specific Gravity @ 20°C:** 0.98-1.0

**Flashpoint:** >200°F (>93°C) SETA Closed Cup

**pH:** 5-7 (1% aqueous solution)

**Solubility in Water:** Dispersible

**Color & Appearance:** Clear Yellow Liquid

**Storage Temperature - Minimum:** 32°F

**Storage Temperature - Maximum:** 120°F

**DOT/IMDG Transportation (applies to containers greater than 119 gallons only):** UN3082, Environmentally Hazardous Substances, Liquid, N.O.S., (nonylphenol), 9, PGIII, Marine Pollutant

**Registered With CDPR:** Yes

**Registered With WSDA:** No

#### PRINCIPAL FUNCTIONING AGENTS

Alkylphenyl, hydroxyl-polyoxyethylene, polymerized resins and fatty acids, paraffin base petroleum oil.....100%

#### PACKAGING

4 x 1 gallon jugs  
36 cases per pallet  
Item#: BFE01
