

PRODUCT INFORMATION

Tronic®

NONIONIC SURFACTANT

A UNIQUE VEGETABLE DERIVED NONIONIC SURFACTANT AND CROP OIL REPLACEMENT

GENERAL INFORMATION

Tronic is a premium high concentrate 95% active low-foaming nonionic surfactant which will replace crop oil and modified seed oil concentrates.

Tronic is a unique surfactant which improves the deposition and penetration of active ingredients into the target plant.

Tronic contains free fatty acids to improve rain fastness and wash-off resistance.

Tronic is designed for use with herbicides, insecticides, fungicides, defoliants, desiccants, plant growth regulators, and any other crop protection product where an oil concentrate or a nonionic surfactant is required or recommended.

An integrated antifoaming system helps minimize foam in the spray tank.

When used according to the Directions for Use, Tronic is compatible with most pesticides and fertilizers.

GROUND AND AERIAL USE RATES

For pesticides where an oil concentrate is recommended, use the following rates:

Ground Application: 1 to 3 pints per 100 gallons of spray solution.

Air Application: 4 to 8 ounces per acre. Refer to pesticide label for minimum water volume per acre.

Aquatic Application: 2 to 4 pints per 100 gallons of spray solution.
