

Vigor®

Vigor®

Triple-Action Liquid Inoculant For Soybeans

Seed Applied Inoculation and Growth Promotion System for Soybeans

Minimum Guaranteed Analysis

PART A, Advanced Nitrogen Fixing Inoculant:

Guaranteed Minimum Bacteria Count: 10 billion (1×10^{10}) cfu/ml

PART B, Plant Growth Promoting Rhizobacteria (PGPR):

Guaranteed Minimum Bacteria Count: 1 billion (1×10^9) cfu/ml

PART C, Liquid Activator and Stabilizer Synergist

Precautionary Statements

CAUTION

KEEP OUT OF REACH OF CHILDREN

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

- Causes moderate eye irritation.
- Avoid contact with eyes.
- Wash thoroughly with soap and water after handling.

General Information

The VIGOR tri-pak case contains a three-part system:

1. Advanced Nitrogen Fixing Inoculation (Part A);
2. Plant Growth Promoting Rhizobacteria (PGPR) (Part B);
3. Performance Synergist (Part C).

When the three parts of the system are combined, the resulting mixture is a ready-to-apply seed inoculant, that should be applied to seed immediately. On-seed survival of bacteria can last as long as 90 days after application. Sequential application of separate seed treatment products is recommended for best results.

Mixing Instructions – SHAKE WELL BEFORE USING

When all three parts of the VIGOR system are combined, the resulting mixture is 300 fluid ounces (8.9 liters or 2.35 gallons) of ready-to-apply live bacteria and activator/stabilizing agent formulated to inoculate 200 units of soybean seed.

Ensure that seed inoculation system has been properly calibrated.

Shake all three VIGOR components (A, B, and C) well, before use.

All three VIGOR components can be mixed directly into the inoculation tank for application to seed.

Agitate or recirculate liquid mixture to ensure proper distribution of bacteria, PGPR and stabilizing synergist.

Use Rate

Apply at a rate of 3 fluid ounces per 100 pounds of seed.

The VIGOR tri-pak inoculates 10,000 pounds of seed.

IMPORTANT!

Prepare only as much VIGOR as will be applied to seed that day.

DO NOT OPEN PACKAGE UNTIL THE TIME OF APPLICATION.

When combining this three part system, the resulting mixture is a ready-to-apply seed inoculant for immediate application. If a delay in application occurs after mixing VIGOR ingredients, product should be used within 24 hours for best results. To extend on-seed survival of 90 days, it is recommended that the VIGOR ingredients be mixed in a dedicated inoculation tank as other seed treatment product may negatively impact live bacteria.

USE BEFORE EXPIRATION DATE | NOT A PLANT FOOD PRODUCT

Storage and Disposal

Do not allow this product to freeze or to be exposed to extreme heat. Avoid frequent temperature fluctuations.

Storage: Store in a cool place between 40°F (4°C) and 77°F (25°C). Store in original container only and do not reuse empty container.

Disposal: Product is not harmful and may be disposed of by using as irrigation for house plants, bedding plants, gardens, and lawns. Dispose of container and any rinsate in accordance with federal, state and local regulations.

NOT A PLANT FOOD PRODUCT

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
