

H2O Maximizer™

H2O Maximizer™

SOIL SURFACTANT POLYMER RESIN BLEND

CONTAINS BENEFICIAL SUBSTANCE

Alkylpolyglucoside.....	17.0%
Poloxalene.....	9.5%
Poly (2-propenamide).....	2.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

Hazard Statements

- May cause eye irritation.

Precautionary Statements

- Do not get into eyes.
- Avoid breathing vapors or mists.
- Avoid using product in a manner as to directly or through drift, expose workers or other persons.
- Applicators and other handlers must wear goggles or face shield and chemical resistant gloves while applying this product.

First Aid

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

General Information

H2O Maximizer is an innovative blend of surfactants that enhance water infiltration through repellent thatch for more uniform soil moisture.

H2O Maximizer's polymer resin enhances water adsorption to soil particles for increased soil moisture to the plant rootzone.

H2O Maximizer maximizes plant available water. Plant available water is that portion of water holding capacity that can be absorbed by the plant.

Directions For Use – Application Guidelines

Use H2O Maximizer in a scheduled water management program throughout the growing season to improve irrigation efficiency resulting in shorter irrigation cycles while maintaining turf quality.

Turf Spray Applications: For best results on highly maintained turf such as golf greens or sports fields, apply 10 fl. oz. of H2O Maximizer diluted in 1 to 2 gallons of water per 1,000 sq. ft. monthly.

For Irrigation Injection/Large Area Application: Inject 16 to 24 fl. oz. per acre on a monthly basis throughout the growing season.

For Conventional Tank Mix Spray Applications on Fairways or Commercial Lawns: Mix 30 fl. oz. of H2O Maximizer diluted in 40 gallons of water per acre. Reapply monthly or as needed throughout the growing season.

New Seedlings – Stand Establishment: H2O Maximizer may be applied with initial watering cycle following a new turf seeding to enhance soil moisture and improve water infiltration. Use at a rate of 5 to 10 fl. oz. (diluted in 3 gallons of water) per 1,000 square feet.

Soil Media Applications: For enhanced hydration of soil, peat or bark media use 5 fl. oz. of H2O Maximizer diluted in 2 gallons of water applied to 1 cubic yard of media. Add H2O Maximizer to water and stir contents.

For Difficult to Wet Media: Use 10 fl. oz. diluted in 2 gallons of water applied per cubic yard.

Storage and Disposal

Keep container tightly closed.

Storage: Store in original container only.

Disposal: Triple rinse container, empty rinse water into spray or stock tank. Dispose of empty container in accordance with federal, state and local laws.

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following: 1. Refund of the purchase price paid by buyer or user for product purchased, or, 2. Replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
